IV.4 – Statistical Data and Indicators

This section aims to gather **statistical data and indicators** for the period covered by this Report:

1 Target groups

Please comment on or refer to the strategy of the partnership (and the one of each partner if there are contextual differences) to involve participants. How many people were intended to be involved, how many got involved, how were these people reached? You should list all major activities that involved the target groups (e.g.: trainings, field trials, good practise implementation, conferences and other dissemination events).

2 Logical Framework

For the logical framework please refer to your application and up-date the matrix of the report where necessary. We are interested to learn how you use the matrix and to what effect. Please comment under *section III.2.5 Challenges and key messages* above.

Please note:

Should items be missing which are relevant for your project you are free to add rows in the table. For items which are not relevant for your project you can delete rows. Columns, however, cannot be deleted to guarantee coherency of reported data across all projects. With the exception of the comments sections, all columns are mandatory.

You can use abbreviations but they should be explained so that anyone can understand what they refer to. For country denomination you can use the official ISO-country codes.

- European Union (EU)

Belgium	(BE)	Greece	(EL)	Lithuania	(LT)	Portugal	(PT)
Bulgaria	(BG)	Spain	(ES)	Luxembourg	(LU)	Romania	(RO)
Czech Republic	(CZ)	France	(FR)	Hungary	(HU)	Slovenia	(SI)
Denmark	(DK)	Croatia	(HR)	Malta	(MT)	Slovakia	(SK)
Germany	(DE)	Italy	(IT)	Netherlands	(NL)	Finland	(FI)
Estonia	(EE)	Cyprus	(CY)	Austria	(AT)	Sweden	(SE)
Ireland	(IE)	Latvia	(LV)	Poland	(PL)	United Kingdom	(UK)

- European Free Trade Association (EFTA)

Iceland	(IS)	Norway	(NO)
Liechtenstein	(LI)	Switzerland	(CH)

Note: Full details on the ISO codes are available under the EuroStat Glossary for Country Codes.

1.   Target groups

Target group	Work package n°. as in your application	Type of activity as named & identified in your application	№ of people targeted (at application stage)	№ of people reached by activity	№ of people involved in the activities	County/ies of the activities/events Use ISO-Country-Codes	Comments
Refugees							
Migrants							
Children							
School students							
HE students							
VET learners							
Adult learners							
Disadvantaged learners							
Volunteers							
Other learners: (please specify)							
Teachers / educators - sector: (please specify)							
Educational institutions - sector: (please specify)							
NGO's							
Private companies							
Local /regional/ national/ European authorities (please select as appropriate)							
Other stakeholders: (please specify)							
TOTAL NUMBER							

This table can be filled-in for all partners or it can be duplicated for each partner. Please add or remove any information which is relevant or irrelevant for your project.

Please provide an up-dated version of your matrix.

2. Logical Framework

	Intervention logic/project summary	Objectively verifiable indicators of achievement	How indicators will be measured	Assumptions & risks
Project's general objective(s) **(GO)**	What is the general objective the project aims to achieve? "Title of the GO	What are the key indicators related to the general objective including Quantity, Quality and Time? GO. "Indicator 1"	What are the sources of information on these indicators?	
Project's specific objective **(SO)**	What is (are) the specific objective(s) the projects intends to achieve? SO1 – "Title of the specific objective"	What are the quantitative and qualitative indicators showing whether and to what extent the project's specific objectives are achieved? SO1. "Indicator 1" SO1. "Indicator 2"	What are the sources of information that exist or can be collected? What are the methods required to get this information?	Which factors and conditions outside the partners' responsibility are necessary to achieve that objective? (external conditions) Which risks should be taken into consideration?
Results **(R)**	What are the outputs (tangible) and outcomes (intangible) contributing to the specific objectives(s)? R1 – "Title of result 1"	What are the indicators to measure whether and to what extent the project achieves the envisaged results and effects? R1 "Indicator 1"	What are the sources of information for these indicators? Indicator 1.1: source 1 Indicator 1.2: source 1	What external conditions must be met to obtain the expected results on schedule?

	R2 – "Title of result 2"	R1 "Indicator 2"		
Activities (A)	What are the key activities (<u>grouped in Work Packages</u>) that lead to achieving the expected results? Group the activities by result and number them as follows: A1.1 – "Title of activity 1" (R1) A1.2 – Title of activity 2" (R1)	What inputs are required to implement these activities?		What preconditions must be met before the action starts? What conditions outside the partner's direct control have to be met for the implementation of the planned activities?
