Brief History

- The building of the Civil Prisons started in the 1842.
- The construction plans of the prisons were designed by an English draughtsman Mr. W. Lamb Arrowsmith.
- He adopted the panoptical view in building the Main Central Hall. The idea was that from a hall designed on a half-circle basis one can see everything that is happening in every division just with an eye glance.

Brief History Cont...

- Other extensions of the main prisons were done on the long run, the most recent extensions were the building of a new Juvenile Division with a maximum capacity of 36 cells. This division started running in 1999.
- The other extension of the facility was the Remand Section which started running in 2003. The new building includes a new Administration Block and 3 Divisions with a total capacity of 141 cells.

Brief History Cont...

- In 2014 the YOURS (Young Offenders Unit Rehabilitation Services) has been relocated to Mtahleb in the same Unit which used to serve as SATU (Substance Abuse Treatment Unit). In April 2017 the unit was modernised and refurbished, renamed Centre for Residential Rehabilitative Services (CoRRS)
- The Female Division has been relocated to the division in which the young offenders used to reside.
- The inmates who carry out community work are now residing in Division 7.

Art and Design Workshop

Art and Design Workshop

A partnership with Heritage Homes Ltd, this workshop provides a structured scheme for inmates who produce top quality souvenirs for the local, and at times, foreign market.

A total of 15 inmates, from the male and female divisions and YOURS participate in this scheme. 10% of their income goes towards victims of crime, 70% is used by the inmates for their daily needs while incarcerated, while the rest can be accessed by the inmates upon release.

Trades at CCF

- Various trade courses are delivered at CCF in collaboration with Jobsplus. These courses generate great interest among inmates
- Trades are also an integral part of life in prison
- Approx. ** inmates contribute to CCF operations and maintenance by learning and practicing various trades. Work is carried out by inmates in the kitchen and bakery and trades including fitter, carpentry, stone masonry, plumbing and electrical works
