Summary of study/report	In an evolving context with regard to the many initiatives taken by the French executive since October 2014, the mission "Undoing, de-recruitment and reintegration of jihadists in France and Europe "held a number of hearings with institutional actors, researchers and representatives of associations involved in the radicalization process and carried out five visits, including a visit to the dedicated detention unit Of Osny (Val-d'Oise) as well as the dedicated center for the management of radicalization located in Pontourny (Indre-et-Loire).
Key findings	reintegration of jihadists
Conclusions of review	In this progress report, the two senators draw up a severe assessment of the methods of de-radicalization of the jihadists implemented in France.
