

Sustainability potential of SERA – Partner questionnaire I

The purpose of conducting an evaluation on sustainability potential is to identify the strengths and weaknesses of the project in terms of its ability to understand and interact effectively with external stakeholders, to produce professional and adaptable outputs, and to ensure an alignment between project goals and organisational (internal and external) goals.

*The same evaluation document will be issued 3 times during the project. **This is the first questionnaire.** Each time, partners are asked to update the questionnaire according to any changes and developments in the project.*

Please answer all 6 parts of this questionnaire as well as you can.

Thank you for your time!!!

Part 1 – Identification of Stakeholders

For project outcomes to be sustainable, you should be aware of who the main stakeholders are.

1. Who are the **main people** in your organisation whose support you need to maintain or promote SERA in the future?

2. Who are the **main external organisations** whose support you need to maintain or promote SERA in the future?

Part 2 – Understanding the environment

It is important to have a detailed understanding of the organisational environment and its impact on the project's sustainability potential.

1. Please **identify 1-3 things** that would enable the project to be sustained **by your organisation**
