Public Education Centers

Our main aim is the provision of coordination between Ministry of National Education and District Directorates of Education

OUR VISION

To be a contemporary and influential institution in all the domains of education

OUR MISSION

We are here to raise successful and happy individuals who are

- broad-minded,
- peaceful,
- democratic,
- open to innovations,
- competitive and
- able to solve problems

Our institution is responsible for the planning, coordination and management of all kinds of educational and training activities for pre-primary, primary, secondary, vocational, technical, SEN schools and adult education in 25 districts of Ankara.

In the world; there are different names like adult education center, public school, public college, community school, multi-functional community center, non-formal education institutions operating under the name of labor university and in our country we have Public Education Centers.

Public Education Centers are units of Ankara Directorate of National Education and these centers are the largest providers of non-formal education activities in our country.

Duties of Public Education Centers;

- ✓ To give knowledge and skills to children, young and adult people,
- ✓ To support the adaptation of changing social and economic roles,
- ✓ To supply the changing educational needs,
- ✓ To create equal opportunities with lifelong education approach,
- ✓ To organize non-formal education activities of other official institutions

We work with the Ministry of Justice in prisons. When the prisoners first arrive at the institution, their education and professional status are determined by the initial interview of the institution's teachers.

Sincan is a district of Ankara and there is a prison campus.

On the other hand, Sincan Public Education Center depends on the Ankara Directorate of National Education.

We assign teachers to prison from these units. Trainings are given according to the requests of the prison authorities.

From these teachers, prisoners may receive academic or social, artistic, cultural and sports training.
